OBJECTIVE

Motivated and detail-oriented graduate eager to apply my skills and contribute meaningful value to the organization. I am committed to learning quickly, adapting to new technologies, and taking on challenging tasks. With a strong focus on teamwork, problem-solving, and continuous improvement, I aim to grow professionally within a dynamic and collaborative environment.

EDUCATION

Bachelor of Technology (Artificial Intelligence and Data Science),

Vasireddy Venkatadri Institute of Technology

2022 - 2026

CGPA: 8.32.

Percentage: 75.7%.

SKILLS

Programming Languages	Java
Web Technologies	HTML,CSS,JavaScript
Databases	MySQL,PostgreSQL
Frameworks/Libraries	React.js
Developer Tools	VS Code, Eclipse, Cursor AI, Git, GitHub
Soft Skills	Effective Communication, Problem-Solving, Time Management, Presentation Skills, Flexibility.

PROJECTS

Eggbasket - E-Commerce Platform | *React.js, Node.js, Express.js, MongoDB, Socket.io* January - 2026

Developed a full-stack e-commerce platform for purchasing eggs online with a responsive UI for both desktop and mobile devices.

Implemented user authentication, cart management, wishlist, checkout, payment, profile management, and order tracking features.

Built an admin dashboard to manage products, view customer orders, and update order statuses in real time.

Integrated MongoDB for data storage and Socket.io for live order status updates.

Designed a modern and user-friendly interface with responsive layouts for an enhanced shopping experience.

Structured the application to support future enhancements such as multi-vendor management and online payment integration.

Weather Application | *HTML, CSS, JavaScript, REST API*

November - 2025

Created a responsive weather application providing real-time weather data for user-searched locations.

Integrated OpenWeatherMap API to fetch and display current conditions, temperature, and forecasts dynamically.

Implemented location-based search functionality with error handling for invalid city inputs.

Achieved clean, user-friendly interface with mobile-first design approach.
